

August 25, 2011

RMP Training
Monday, September 19, 2011
8:00 am to 2:30 pm

City of Pineville
Kees Park, 2450 Highway 28 East
Pineville, LA 71360

The EPA Risk Management Program, (RMP) rule, 40 CFR Part 68, was promulgated in June 1996. This required compliance with the rule and submission of an RMP plan to EPA by June 21, 1999. As part of the ongoing compliance with the RMP rule, a training program, including refresher training, is required to ensure that the rest of the prevention program for your facility is effective.

Free training is being offered by the City of Pineville in partnership with Hydro Instruments, Municipal and Industrial Chlorination, Inc., Thornton, Musso and Bellemin, and LA State Police Emergency Services. This training is designed for facilities which use Chlorine and/or Sulfur Dioxide in either wastewater or drinking water applications. This workshop is approved for 5 CEUs for all water and wastewater operators.

To register for the workshop, complete the registration form or contact Marion Simpson at 318-449-5669 or email jreco254@yahoo.com

There is no charge for this workshop, but the deadline to register is Wednesday, September 14, 2011.
